Manager  
HumanWare

# Learning Objectives

- The participant will
  - Understand the basics of the Books and Notes applications, as well as their purpose.
  - Recognize and appreciate the ability to bookmark and annotate reading materials.
  - Identify the steps to set one of the three available calculators as the default.
  - Know that user data can be shared and how to turn sharing on and off.

# Challenges

- Students need a way to identify and review key information in text such as new vocabulary words or themes.
- Different students require different ways of annotating text.
- Navigating back to an important passage in a long text can be difficult for students using magnification.
- Completing paper worksheets can create a barrier to learning.

# Poll Question #1

How frequently do you have students complete worksheet-type activities using the MATT Connect?

- Never
- Daily
- Weekly

# Poll Question #2

How many different applications do your students use to access downloaded books?

- Zero
- One
- 2-4
- 5+

# Poll Question #3

What are the different ways to annotate a downloaded book?

- Highlighter
- Text Notes
- Pen
- Bookmarks
- None of the Above
- All of the Above

# Version 4.6

- Version 4.6 update includes the following new features
  - For downloaded books
    - Go to Page navigation
    - Bookmarks
    - Mark-up, Highlight and Text Note tools
  - Contrast preferences for Calculators
  - Opt-in for Usage Metrics

# Discoveries

- Version 4.6 is now available.
- Your system should prompt you to update automatically.
- You can also search for the update on Settings> System> Software Updates.
- These updates will enable students to extend their learning activities on the MATT Connect.
